

## Business questions missing words pairwork

### Student A

Each section below has questions with the same word missing. Choose one section and read out any of the sentences there with a silence or hum to show the missing part, and let your partner guess **just once**. If they are right, they will do the same for you with a sentence from their own (different) worksheet. If they are wrong, give them another example from **the same section**. Continue until they get it right or you run out of examples.
