Guess which kind of future game

Say one thing about your future without using a full sentence, e.g. "Get my hair cut". Your partner will try to guess if that is an arrangement (e.g. you have an appointment), a plan (= you have decided to do it) or just a prediction (= your picture or imagination of the future). When they have guessed correctly, they will try to make a true sentence in the right tense, e.g. "You are getting your hair cut some time this week".
