

Nationality words like and don't like bluffing game

Make a personal statement using words from below. You can either say something that is true or use your imagination. Perhaps after asking for more details with questions like "Why do(n't) you like it?" and "When did you try it?", your partner will guess if what you said is:

- True (= You really do like it if you said you like it, or really don't like it if you said you don't like it)
- False (= Just your imagination, for example you don't like when you said you like it, or you said you don't like it but you like it, or if you don't know if you like it or not)

Play the same game, but this time (secretly) flip a coin and:

- Say "I like..." if heads is top
- Say "I don't like..." if tails comes up

Nationality words presentation

Without looking at the other page, write the nationality adjective for each of these nouns.

Africa	America
Argentina	Australia
Austria	Belgium
Brazil	United Kingdom
Canada	China
