

Nouns which are both countable and uncountable pictorial

Choose and draw one of the things below. The two pictures with the same noun must always be different, and usually very different, so make sure that what you draw matches exactly the phrase that you chose (not the other thing on the same line). Continue until your partner guesses exactly what you chose, including your partner getting -s or no -s right.

Ask about any which you are not sure how to draw and/ or are not sure about the differences between, working together to draw both things with the same noun each time.

Match these collocations to the no collocations cards:

action	camera/ spare
bed	
bell/ green/ red/ yellow	black/ ground
birthday/ wedding	cup
board/ card	freshly caught
broken	wine/ sun
