

**Personality words bluffing game
with personality adjective synonyms and opposites**

Choose one of the personality words below and tell your partner which you chose. Tell a story to illustrate how that is true about your personality, e.g. "I once shouted at a bus driver for being five minutes late" for "Impatient". If you can't think of a real story, you can make one up. Your partners will ask questions to find out more about that story and/ or about that aspect of your personality. They will then try to guess if your story is true, and if you are a... person.
