Unreal Past Sentence Completion

Complete at least half the sentences below with something that you really think.
OR
Complete at least half of the sentences below with a mix of true and false information.
OR
Work together to find and complete the sentences below with things you have in common.

Note that not all the sentences below need Unreal Past.

If you wrote a mix of your own true and false information, read out a sentence, answer questions about that situation (still lying if it was imaginary), then see if your partner can guess if it was true or not.
OR
If you wrote just your own true information, read out just the part you have written (not the part that is already printed there) and see if your partner can guess which sentence that comes from.

Useful phrases for playing the sentence completion guessing game

"No, that isn't possible (grammatically) because… Please try again."

"No, it can't be that because…. Any other ideas?"

"That would have to be… to be grammatically correct, and my sentence was…"

"No, that doesn't make (much) sense because… Have another go."

"No, that isn't true (for me) because… Which other sentence could it be, do you think?"

"That's possible, but…"

"That's grammatically correct, but…"

"That's close, but…"/ "Good guess, but…"

"That is also true, but it isn't the sentence I've written. Can you think of another?"

"Yes, that is exactly what I've written. It's your turn."
